They wanted what practically was the Hearst bill. The benoceratic caucus had adopted another boll, and the fact caused Mr. Williams then to make the charge, which he now repeats, that Shackleford and Lamar Bepresentatives deny that they were pledged and resent both the charge and its renewal. However, that may be, Leader Williams this year is determined to have a unantinous minority report from the committee but the railroad-relate proposition. Hence his decision to change the committee berths of the two men. But his course opens a basis for an issue to be railed by Hearet and his friends. Senate Will Take Up Panama Canal Emergency Bill To-Day, and Debate Is Expected to Be Pro-

Washington, Dec. 18.—The first important measure which will receive the attention of the Senate will be the Panama Canal emergency appropriation bill, and its consideration will begin this week. Some Senators predict that it will become a law before the close of the week, but others have expressed the opinion that final action will be deferred until the week following.

There will be no effort to prevent the passage of the bill in some shape, but there will be some opposition to the proposed restoration of the \$5.56,690 subtracted by the House from the amount to be appropriated.

Regardless of the sum, the hill will be utilized as a basis for the general discussion of the canal question. It is expected that the bill will deal largely with the question as to whether the canal shall be constructed on the sea level. There is some conflict of opinion as to whether the bill shall be referred to the Committee on Appropriation or the Committee on Interocean Canal's.

IMPORTANT BILLS.

IMPORTANT BILLS.

The general expectation is that there will be commaratively little additional legislation before the Christmas holdays. Several other measures will be pressed vigorously during the session, but, with the exception of the merchant marine bill, the sponsors of the bills do not count upon getting early consideration. Senator Gallinger will call up the merchant marine bill at the first opportunity, and is hopeful that action will not be long delayed. No one counts upon even getting a report from committees on the railread-rate bill until some time after the holidays.

The three measures mentioned are considered the most important that will come before the Senate during the session and they will receive much attention until they are finally disposed of. The consideration by the Senate of the joint-statehood bill and the bill for the reduction of duty on Philippine importations into the United States necessarily will be postponed until after the holidays.

TARIFF. No one now expects any effort to modify the tariff unless in the direction of Sena-tor Lodge's bill providing for a maximum and minimum rate. The Massachusetts Senator regards this proposition with much favor and will press it strenuously if he receives any encouragement to do so.

Much of the time during the present Much of the time during the present week will be devoted to reorganization of the committees, and there is loope that the amouncement of changes can be made before Thursday.

Senator Michell's death will be announced by Senator Fulton to morrow, but it is not probable that the announcement will cause an adjournment of the Senate.

PERMANENT COMMISSION.

Senator Culberson of Texas has introduced a bell covering this point. His measure constitutes it an act of felony for any insurance company to donate to a campaign (and in any manner whatsoever. Graft in the Federal departments is declared to be the meaning of Senator Simmonds's bill to Congress. Mr. Sammonds advecates the creation of a permanent. Keep Commission. The dates of this commission would be to investigate annually the work of the several Government departments and report its conclusions direct to Congress. It is a move in the right direction, Senator Simmonde's colleagues claim. If it is accessary for a "Keep Commission to keep the Government work work abreast of the Units, the proper way to do it would be to have a permanent committee named for that portioniar work.

The Democratic members of the Senate do not concur in the President's idea that the "Reep Commission" can straighten out the Government's losiness methods. The personnel of that commission is made up of Government officials and while not questioning the committee's integrity, they holds that a specialty appointed body that is not connected with any department, would be more satisany department, would factory all along the line.
